

TEV & VEG PARTNERSHIP

The Evolved Vets Membership — for every VEGgie.

A wellness & leadership program — RACE-approved CE, live coaching, community, and recovery tools built by one of your own, for every veterinary professional at VEG.

Help people stay in the profession *longer*.

Emergency medicine asks more of our people than almost any corner of vet med — and the peer-reviewed research is unambiguous.

- **Suicide risk is elevated across the whole team.** Veterinarians die by suicide at 2.1× (men) and 3.5× (women) the rate of the general U.S. population; for veterinary technicians it is 5.0× (men — a small-sample estimate) and 2.3× (women).^{1,2}
- **The strain reaches the whole team.** In the peer-reviewed Merck Animal Health Veterinary Team study, conducted with the AVMA, serious psychological distress was twice as prevalent among nonveterinarian practice team members as among veterinarians — and their reported wellbeing was lower. AVMA leadership has made team wellbeing a stated priority for the profession.³
- **Meditation works — for burnout and for leadership.** A mindfulness course for healthcare providers significantly reduced burnout on every Maslach Burnout Inventory scale and improved mental wellbeing; a Lancet meta-analysis confirms that burnout interventions, including mindfulness, produce meaningful reductions; and employees of supervisors higher in mindfulness show better wellbeing and performance.^{6,7,8}
- **Attrition is expensive.** Replacing one employee costs one-half to two times their annual salary (Gallup), and average annual turnover among veterinary team members runs near 23% (AAHA).^{4,5} Preventing even a handful of departures pays for this program many times over.

VEG cares about its VEGgies — and this program is that care made tangible. It's part of how "VEGgies brag about their jobs and their friends are jealous," and it

lives the ethos: *"We treat pets like people and people like humans."*

Tools for the hard days. Support for the long game.

The Evolved Vets Membership is a year-round roadmap to building confidence, managing energy, improving communication, and stepping into leadership — made by a veterinarian, for veterinary professionals.

TEV CONNECT

A private community of veterinary professionals supporting each other's growth, expansion, and leadership.

VET RESETS

A library of quick meditations made for vets — Shift Shedding, Surgery Confidence Boost, Reconnecting With Your Why.

LIVE COACHING

Monthly live group coaching calls supporting each member's personal and professional evolution.

MASTERCLASS EVOLUTIONS

Biannual group programs — Summer and New Year — working through a new Masterclass together, week by week.

RACE-APPROVED CE

30 hours of RACE approval available throughout the year — wellbeing work that also counts toward licensure.

AUDIO ARCHIVE

A growing collection of every meditation, elevation, and integration from TEV Masterclasses, on demand.

And it never stands still: VEGgies get every **new course, meditation, and monthly coaching call** as they're released — the membership grows all year, at no added cost to VEG.

Standard membership price: \$1,200/year (contents valued at \$6,800/year). VEG would never pay standard pricing — this proposal is cost-basis only.

Built for how ER VEGgies actually live.

MADE BY ONE OF YOUR OWN

Built by a practicing ER veterinarian who knows overnights, caseload stress, and compassion fatigue from the inside.

ALREADY BUILT & RUNNING

The membership is live today with paying members: community, coaching calls, meditation library, masterclasses, and RACE-approved CE all operating now.

ONE CLICK VIA OKTA

The membership site lives as a tile in VEG's Okta dashboard. A VEGgie clicks it and lands in the member portal — no friction between a hard shift and the tools.

ZERO IT BURDEN ON VEG

Hosting, enrollment, content, and support are all handled by the program. VEG's only role is covering costs and adding the tile.

Similar playbook as the large-animal training partnership.

Similar to the farm-training program: an initiative, run independently, that gives VEGgies extra support at cost because of its impact.

- **Bethany owns and operates the program** as an independent initiative, not VEG-branded, per your requests.
- **A deep discount, not the full price.** VEG pays part of the expenses to develop & run the program for its people — no margin. The exact math is two slides ahead.
- **One membership. All VEGgies.** Membership is open to every VEGgie — one flat sponsorship covers them all.
- **Outside sales stay separate.** The public-facing product continues independently and will never present itself as VEG-sponsored or VEG-branded.
- **An ongoing partnership.** Tell me what VEGgies need, and I'll keep building the courses and meditations with their needs in mind. At-cost membership gives VEG employees more resources while Bethany expands her reach beyond her region — and the cost stays fixed even as VEG grows. With VEG opening another 30 hospitals next year, that's at least another 900 VEGgies.

What the program costs to run.

The monthly expenses of running The Evolved Vets, in three buckets.

CATEGORY	WHAT'S INSIDE	MONTHLY
Wellness content & production	Production, new courses, meditations, and masterclass content	\$2,700
Member support & operations	Member support team, onboarding, RACE approval, and program administration	\$1,750
Technology & platform	Member portal, membership app, web hosting, email & messaging systems	~\$450
Total program cost	No margin	~\$4,900 / mo

A 99% reduced cost — for every VEGgie.

The program's exact operating cost — expenses plus capped administration time, no margin — opens the membership to all 5,200 VEGgies, with no per-enrollment fees and no cap.

STANDARD PRICE

\$1,200 per person/year

What a member typically pays for an annual membership

REDUCED COST

99% off

\$11.31 per VEGgie per year — 94 cents a month — across all 5,200

PROGRAM COST

\$4,900/mo flat

Never grows with enrollment, however many VEGgies join

The math: \$4,900/month is \$58,800/year; spread across all 5,200 VEGgies, that's \$11.31 per person per year — about 1% of the \$1,200 standard annual price. VEG breaks even if just 49 VEGgies were to join at full price — every VEGgie beyond that is free.

Two ways in — at work and on the go.

VEGgies can reach the membership through a tile in VEG's Okta dashboard, or from anywhere through the Evolved Vets App.

VIA OKTA

A tile in VEG's Okta dashboard, right next to the tools VEGgies use every shift. One click and they're in the member portal.

VIA THE EVOLVED VETS APP

Meditations, community, courses, and coaching calls on their phone — before a shift, after a hard case, wherever they are.

A PARTNERSHIP WITH VEG IT

Bethany will partner with VEG's technology team to stand up the tile and access — IT guides the how, TEV provides everything needed.

An ongoing program, reviewed together.

ONGOING TERMS

An open-ended monthly arrangement with no fixed end date — the program starts as soon as the tile is live.

SUCCESS METRICS

Enrollment, weekly active usage, self-reported stress & workload pulse, retention intent, and VEGgie satisfaction (NPS).

REGULAR REVIEWS

Enrollment, engagement, and costs reviewed together on a regular cadence — terms renegotiated as the program grows.

Thank you for being open to this. The whole point is helping our people stay in the profession they love — and I'd be proud to build that in a way that supports VEG.
— Bethany
