

TEV & VEG PARTNERSHIP

The Evolved Vets Membership — for every VEGgie.

A wellness & leadership program — RACE-approved CE, live coaching, community, and recovery tools built by one of your own, for every veterinary professional at VEG.

The next evolution of VEG's innovation: its *people*.

VEG has reimagined emergency medicine for pets. This partnership extends that same innovation to the wellbeing and leadership of the people delivering that care every day — and the peer-reviewed research says it works.

- **Meditation works — for burnout and for leadership development.** A mindfulness course for healthcare providers significantly reduced burnout on the Maslach Burnout Inventory scale and improved mental wellbeing. A major review in *The Lancet* confirms these programs meaningfully reduce burnout. And when leaders practice mindfulness, their teams do better — higher wellbeing and stronger performance.^{1,2,3}
- **The need reaches the whole team.** In the peer-reviewed Merck Animal Health Veterinary Team study, conducted with the AVMA, serious psychological distress was twice as prevalent among nonveterinarian practice team members as among veterinarians — and AVMA leadership has made team wellbeing a stated priority for the profession.⁴
- **The stakes are real.** Veterinarians die by suicide at 2.1× (men) and 3.5× (women) the rate of the general U.S. population; for veterinary technicians it is 5.0× (men — a small-sample estimate) and 2.3× (women).^{5,6}
- **And attrition is expensive.** Replacing one employee costs one-half to two times their annual salary (Gallup), with average veterinary team turnover near 23% (AAHA).^{7,8}

This program is VEG's care for its VEGgies made tangible — part of how "VEGgies brag about their jobs and their friends are jealous," and it lives the ethos: "*We treat pets like people and people like humans.*"

Reb J, Narayanan J, Chaturvedi S, Mindfulness 2014;5(1):36-45. 4. JAVMA 2024;262(10). 5. Tomasi SE et al., JAVMA 2019;254(1):104-112 (CDC/NIOSH). 6. Witte TK, Nett RJ et al., JAVMA 2019;255(5):595-608 (CDC/NIOSH); the male technician estimate rests on fewer than 20 deaths. 7. Gallup, 2019. 8. AAHA turnover data, as cited by the AVMA.

Tools for the hard days. Support for the long game.

VEG gains a year-round system for building confident, energized, communication-strong leaders — made by a veterinarian, for veterinary professionals.

TEV CONNECT

A private community of veterinary professionals supporting each other's growth, expansion, and leadership.

VET RESETS

A library of quick meditations made for veterinary professionals — Shift Shedding, Surgery Confidence Boost, Reconnecting With Your Why.

LIVE COACHING

Monthly live group coaching calls supporting each member's personal and professional evolution.

MASTERCLASS EVOLUTIONS

Biannual group programs — Summer and New Year — working through a new Masterclass together, week by week.

RACE-APPROVED CE

30 hours of RACE approval available throughout the year — wellbeing work that also counts toward licensure.

AUDIO ARCHIVE

A growing collection of every meditation, elevation, and integration from TEV Masterclasses, on demand.

And it never stands still: VEGgies get every **new course, meditation, and monthly coaching call** as they're released — the membership grows all year, at no added cost to VEG.

Standard membership price: \$1,200/year (contents valued at \$6,800/year).

VEG BONUS Hospital-wide facilitations — available to individual VEG hospital locations upon request.

Built for how ER VEGgies actually live.

CREATED BY AN EXPERT WHO LIVES IT

Created by Dr. Bethany Weinheimer, a practicing ER veterinarian and emerging voice in wellbeing and leadership development — who knows overnights, caseload stress, and compassion fatigue.

ALREADY BUILT & RUNNING

The membership is live today with paying members: community, coaching calls, meditation library, masterclasses, and RACE-approved CE all operating now.

ONE CLICK VIA OKTA

The membership site lives as a tile in VEG's Okta dashboard. A VEGgie clicks it and lands in the member portal — no friction between a hard shift and the tools.

ZERO IT BURDEN ON VEG

Hosting, enrollment, content, and support are all handled by the program. VEG's only role is the partnership and adding the tile.

Similar playbook as the large-animal training partnership.

Similar to the farm-training program: an initiative, run independently, that VEG invests in because of its impact on VEGgies.

- **Bethany owns and operates the program** as an independent initiative, not VEG-branded, per your requests.

- **An enterprise partnership.** Unlimited access for every VEG employee through one annual organizational investment.

- **One membership. All VEGgies.** Open to every VEGgie — and the investment stays fixed as VEG grows. With 28 new hospitals opening next year, that's at least another 900 VEGgies included.

- **Outside sales stay separate.** The public-facing product continues independently and will never present itself as VEG-sponsored or VEG-branded.

- **Built around VEGgies.** VEG shares what its people need, and Bethany keeps building the courses and meditations with their needs in mind — the program evolves with VEG, reviewed together on an ongoing basis.

Focus on executive outcomes, and the value is obvious.

Retention, leadership, and culture — value measured in the terms VEG already uses.

ONE RETAINED VETERINARIAN

Given the cost of replacing a veterinarian — widely estimated at 1.5–2× annual salary — retaining even one team member has the potential to offset a significant portion, or even all, of the annual investment.

ONE LEADER DEVELOPED

A leader promoted — or kept in seat — through greater emotional regulation and growth shapes the experience of every VEGgie they lead. Leadership development compounds.

THE SCALE OF TURNOVER

At the industry's ~23% team turnover (AAHA), 5,200 VEGgies means roughly 1,200 team transitions a year. If this program prevented even 1–2% of those departures, it would return several multiples of its annual cost.

BEYOND RETENTION

Lower burnout and stronger day-to-day wellbeing show up in engagement, culture, and quality of care — the outcomes VEG already measures and celebrates.

VEG'S STRATEGIC PRIORITIES

With growing case volumes, retaining highly skilled talent is vital — and the capabilities this membership builds (self-compassion, grace under pressure, and mindset shifts around feedback) are exactly what keeps people at VEG,

because it fosters an
even deeper culture.

One organizational investment. Every VEGgie included.

This enterprise partnership provides unlimited access for every VEG employee through one annual organizational investment.

ANNUAL INVESTMENT

\$58,800 /year

Billed monthly at \$4,900 — fixed regardless of enrollment

WHO'S INCLUDED

5,200+ VEGgies

Every employee, unlimited access, all new content as it's released

AS VEG GROWS

\$0 more

Scales automatically — 28 new hospitals next year (~900 more VEGgies and 28 more opportunities for hospital facilitations) with no per-user licensing, no implementation project, no IT lift

Structured as a fixed annual operating agreement. Includes everything: the full membership, every new course and meditation, the monthly coaching call, hospital-wide facilitations for individual locations upon request, RACE-approved CE, Okta and app access, and Bethany's ongoing program leadership.

Two ways in — at work and on the go.

VEGgies can reach the membership through a tile in VEG's Okta dashboard, or from anywhere through the Evolved Vets App.

VIA OKTA

A tile in VEG's Okta dashboard, right next to the tools VEGgies use every shift. One click and they're in the member portal.

VIA THE EVOLVED VETS APP

Meditations, community, courses, and coaching calls on their phone — before a shift, after a hard case, wherever they are.

A PARTNERSHIP WITH VEG IT

Bethany will partner with VEG's technology team to stand up the tile and access — IT guides the how, TEV provides everything needed.

I'd be honored to partner with VEG in building the healthiest, most resilient veterinary workforce in the profession.
